Re : Purchase of Tree Trimming Truck bid # 7297

June 26, 1996

Approval to purchase one tree trimming truck is requested.

Trucks containing a chip box and TECO boom apparatus increase efficiency in tree pruning. The boom on the truck that will be replaced has far less mobility and reach.

The new truck has a boom that rotates a full 360 degrees, as well as the ability to extend the upper boom section over the top and increase the reach of the operator. The truck that is being requested is the same as the truck that was purchased two years ago.
